2007-2011 Proposed Capital Improvement Program

Art in Public Places

In developing the 2007-2011 Proposed Capital Improvement Program, staff analyzed the construction projects over \$500,000 to determine which projects should have public art allocations under Chapter 22.08 (Art in Public Places) of the San José Municipal Code. Attached is a breakdown of the Public Art allocations in the 2007-2011 Proposed Capital Improvement Program (Attachment A). In addition, a listing of those construction projects over \$500,000 that do not have public art allocations, along with explanations for the exclusions, is provided as Attachment B.

As shown in Attachment A, a total of \$8.8 million is programmed for public art in the 2007-2011 Capital Improvement Program. This figure does not include the \$7.8 million in public art expenditures estimated for 2005-2006. A portion of these funds may be rebudgeted to 2006-2007 later in the budget process. The public art allocations are spread among the Airport, Civic Center, Public Safety, Library, Municipal Improvements, and Parks and Community Facilities Capital Programs.

The majority of projects that are not designated as eligible for public art allocations are recommended for exclusion because the public usage and/or visibility are too minimal. There are also numerous projects to maintain or remodel existing facilities without increasing the size, capacity or function of the facility that do not require public art allocations. In addition, projects that are designated for planning, design or project management do not include public art funding. In some cases, the project has a restricted funding source that does not allow public art allocations.

In accordance with the San José Municipal Code, the attached worksheets will also be submitted to the Arts Commission for review.
